

Song Title

Bob Bobby
Sam Sally
Your Name

Replace this text with your first section lyric
Songs usually start with a verse
But not always
Sometimes they start with the chorus
Song lyrics don't use periods
And lines always begin with a capital letter

Chorus
The chorus repeats
So when you're writing it on lyric sheets
You don't have to spell it out every time
You can write
Repeat Chorus
And save your space
So your lyric sheet fits on one page

Your second verse or bridge will go right here
If you go to a bridge
You can mark it like your chorus
With an underlined section header
Like this one below

Repeat Chorus

Bridge
As we say in Nashville
Never write or burn a bridge unless absolutely necessary
Not all songs have bridges

Repeat Chorus
